

HEALTHY me!

The Adventures of Coco the Cow

.....

Date: _____

Dear: _____

My class is learning about the dairy foods. We learned that dairy foods are made from milk that comes from cows like Coco the Cow. I want to learn about what dairy foods you eat and drink. I am sending you my Coco the Cow to take on an adventure. When she is finished with her adventure, please send her back to me at school. She can stay with you for one week.

I would like you to write about your adventure with Coco. You can also take pictures and send them to me. Coco likes to learn about new places, other cows and animals, and what dairy foods people like to eat and drink.

Please return Coco and the stories about her adventure to me at school by (date) _____. We are going to read about her adventures in class!

My school's address is:

Thank you for helping my class learn about dairy foods!

My name
